to study breadmaking is to realize that like many other food processes it is constantly changing as processing methodologies become increasingly more sophisticated yet at the same time we realize that we are dealing with a foodstuff the forms of which are very traditional new ideas and raw materials are

constantly being presented to bakers from wheat breeders millers and ingredient and equipment suppliers for their evaluation in addition there are on going changes in legislation and consumer demands to meet such pressures bakers must be able to better integrate their key raw material wheat flour with other ingredients and processing methods to deliver bread of the appropriate quality technology of breadmaking second edition sets out to identify and present the new knowledge that has become available in last 10 years as well as update information like the first edition it provides a useful tool to help bakers scientists and technologists to cope with those changes
